Introduction

The BMW Charging rates are governed by the maximum charging speed.

BMW Charging differentiates the following charging speeds:

AC – alternating current (normal charging)

DC – direct current (fast charging)

HPC – high power charging (ultra-fast charging)

The maximum charging power capacity of each charging station can be found on the BMW Charging website and in the My BMW app.

Please note that the transaction units for charging in public areas may vary due to regulatory requirements in the individual European countries. A transaction is differentiated in terms of kWh, time (min.), or by charging event. All prices are individually based on charge point operators. A variable tariff applies with regard to the individual charging process. The prices depend on respective charge point operators. For charging abroad (= e-roaming), you will always pay the local sales rate without any additional fees.

Optional package(s) that you can subscribe to after finishing the registration:

IONITY Plus

When logged in, you will always see the applicable prices on the map within the app or on the BMW Charging website. Prices may vary in other markets. Please download the full price list for details.

The IONITY package has an initial term of 1 month. Thereafter, it runs for an indefinite period and can be cancelled by the customer with effect to the contract qualifying date. The contract qualifying date is the day of a month preceding the day equivalent to the date the package was booked. For example, if the IONITY package was booked on the 7th day of a month, the contract qualifying date is the 6th day of the following months. In case the respective date is non-existent in a particular month, the contract qualifying date is the last day of that month. Digital Charging Solutions GmbH,

the company behind BMW Charging, may terminate the IONITY package with a notice period of one month (a) with effect to the contract qualifying date or (b) to the end of a calendar month. Furthermore, the IONITY package automatically ends if the Charging Contract is terminated.

1) Customers of a fully electric BMW also automatically receive the IONITY Plus package for one year without a basic fee.

Thereafter, it runs for an indefinite period and can be cancelled by the customer with effect to the contract qualifying date. The contract qualifying date is the day of a month preceding the day equivalent to the date the package was booked. For example, if the IONITY package was booked on the 7th day of a month, the contract qualifying date is the 6th day of the following months. In case the respective date is non-existent in a particular month, the contract qualifying date is the last day of that month. Digital Charging Solutions GmbH, the company behind BMW Charging, may terminate the IONITY package with a notice period of one month (a) with effect to the contract qualifying date or (b) to the end of a calendar month. Furthermore, the IONITY package automatically ends if the Charging Contract is terminated. After the promotion period, the package base fee will be charged to the customer.

The model-specific new vehicle advantages are automatically added as part of the registration process. Offers are only valid for the respective vehicle's initial contract. Offers cannot be transferred to other vehicles, owners or contracts. After expiration of the new vehicle advantages, the regular conditions of the booked basic tariff apply.

2) The prices displayed as "flexible prices" vary depending on the operator of the charging station and are subject to change. Additional fees, such as session fees, blocking or other time based fees, may apply at certain charging stations. The current applicable price, <u>plus</u> any additional fees, will be displayed at a selected charging station in the map of the My BMW app or on the BMW Charging website and can be checked directly prior to initiating a charging session.

3) The charging service contract runs for an indefinite period of time and can be terminated by the customer at any time from the reference date of the contract, with a notice period of no more than one month.

Charging Event Transaction

The invoicing of varying fees for charging is based on the appropriate tariff per minute (per commenced minute), per kWh or per charging event. The charging event starts if the vehicle is connected to the charging station and ends when it is disconnected. You can also recharge for free using the BMW Charging service at free charging stations.

All rates incl. VAT, subject to changes and errors.
